

hill

moveart smartcity

smartcity hill

While adults will appreciate «hill» as an aesthetically designed play sculpture, children will see it as a small world full of adventures. Whether in the large or small version, «hill» guarantees not only fun but also encounters and movement.

Design:

All objects originate from a single form – the so-called double helix, the form of the DNA strands of all living things. They thus have an energising and harmonising effect on people and the environment.

Material:

All products are constructed using 100% ecological and sustainable Accoya wood, and have a minimum outdoor life span of 25 years. They are low-maintenance and resistant to vandalism.

Safety:

All objects are manufactured according to European safety standards for playground equipment SN EN 1176.

Tech. Specifications:

Length: 347 cm
 Width: 91 cm
 Height: 62 cm
 Weight: 120 kg
 Critical fall height: 62 cm
 Number of foundations: 4
 Construction time (approx.): 2 pers. à 2 hrs.
 Crane required
