

Play value

The Chain Path consists of carefully mounted running bars which swing harmonically under load. This interesting linking element is a challenge for skills and concentration and is a relaxation for tired feet. The Chain Path is also available as access equipment for slopes.

Foundations

Order No. 6.52000
Chain Path

- 4 items 60 x 60 x 60 cm
- Excavation depth 80 cm

Attention:

Exact measurements may vary, for all installation dimensions refer to current installation instructions.

Technical changes reserved.

Technical information

Equipment made of non-impregnated mountain larch

Core-free

Sawn-timbers core-free, thus decreasing occurrences of cracking and undesired changes in shape

Profiled washer

Profiled washer for covering protruding screw heads according to standard, improved pressure distribution and protection against water. Impedes loosening the bolt

Adjustable

Adjustable two-piece bolt connection, easy to maintain, no projecting threads

Chains

Chains made of hot-dip galvanized steel (1.4301 / 1.4571 at extra charge) welded before galvanising, short-linked, without eyelets on the connecting parts, easy to exchange and shorten

Running boards \varnothing 80 mm

Order No. 6.52000
Chain Path

As above, but in addition with

Peeled white

Palisades peeled white means that bark, cambium and sapwood are removed, the natural shape of the trunk is preserved and can be experienced

Bevel cut

Vertical stand posts with bevelled end grain section as constructive wood preservation measure

Ground anchor

All parts used for anchoring to the ground are made of hot-dip galvanized steel or stainless steel

For more detailed explanation of the quality characteristics see price list.
